Halifax, NS B3J 3S3

Re: M05522 – Nova Scotia Power Incorporated 2014 Integrated Resource Plan

Dear Ms. Friis:

In accordance with the 2014 IRP Terms of Reference, NS Power is pleased to file its 2014 Integrated Resource Plan Final Report. Due to file size, the Final Report is available on the Company's website at the following location:

<http://www.nspower.ca/en/home/about-us/electricity-rates-and-regulations/regulatory-initiatives/IRP.aspx>

Please also find attached a redline version of the Final Report comparing with the Draft Report circulated on September 30, 2014 by the Company. The changes reflect the Company's response to specific stakeholder comment submissions, rather than to reflect substantive changes to the discussion of the analysis that was performed.

The Board approved an extension to the IRP schedule to permit the Synapse technical team and the Facilitator to file reports on October 20. As NS Power will not have the opportunity to review those reports in advance of October 20, NS Power reserves the right to provide further comment for the benefit of the Board and interested parties if it determines it to be necessary at that time.

Yours truly,

Tim Wood
Manger, Regulatory Strategy
